SUMMARY

I am Giannis, a web developer based in Athens, Greece. I love JavaScript and always try to keep up with the fast-growing industry of web development, following the best practices and patterns.

EXPERIENCE

CodeFactory, Athens— *Web Developer*

June **2019** - Present

As a front-end developer I was creating interfaces with Vue.js following the best practices. Used modern features like push notifications, WebRTC and more. Converted web applications into hybrid mobile applications using Capacitor.js and published to both Google Play Store and Apple App Store. I consumed a variety of RESTful APIs as well as implemented some with Node.js and Express.js.
